EDUCATION

BE (Bachelor of Computer Engineering) [2020 – Present (Semester 7) (CPI:8.91)]
L.J. Institute of Engineering & Technology, Ahmedabad, Gujarat, India

GSHSEB Gujarat Higher Secondary Board – Science (Group-A) (Percentile: 87.43)
Shraddha Vidhya Mandir, Ahmedabad, Gujarat, India

GSEB Gujarat Secondary Board (Percentile: 94.43)
Shraddha Vidhya Mandir, Ahmedabad, Gujarat, India

PROFESSIONAL SUMMARY

SOFTWARE DEVELOPER

- As a recent software development graduate, I'm eager to put my knowledge into practice. I'm well-versed in Python, Java, and JavaScript, and I've also dabbled in web development, mobile app creation, and database management. I have a solid grasp of programming fundamentals, algorithms, and data structures.

- During my academic journey, I actively collaborated on team projects, refining my communication skills and ability to work well with others. I thrive in environments that challenge me to think critically and creatively, always seeking to learn and grow.

- My current role at Eonian Software Solutions involves working with Next.js, React.js, Python, and FastAPI. Additionally, my internship at TatvaSoft focused on React.js and Node.js. I'm keen to explore Microsoft technologies like SharePoint, Power Platform, and Azure, as I believe they offer exciting opportunities for professional development and interesting projects.

- I'm excited to bring my enthusiasm and skills to a company that values growth and innovation, where I can make a meaningful impact and continue to grow both personally and professionally.

TECHNICAL SKILLS

JavaScript	ReactJS - Typescript	NextJS, Vite (Framework)
Redux Toolkit	Python	FastAPI/Flask (Python)
HTML, CSS	SQL- DBMS	Data Structure and Algorithm
Java	Data Visualization	Object Oriented Programming
PHP	C Language	Problem Solving

INTERESTS

I love learning new tech quickly. I work with Next.js, React.js, Python, and FastAPI at Eonian Software Solutions. Before that, I interned at TatvaSoft with React.js and Node.js. Excited to explore Microsoft stuff like SharePoint, Power Platform, and Azure for more skills and cool projects.

PROJECTS

Project Name:	Face Recognition Attendance System
Technology:	Python, Flask, HTML, CSS, JavaScript
Description:	This project detects and recognize faces with giving scores and parameters, furthermore the subsystems are an Excel sheet that is integrated with the program, and a messaging device that is for either a message for absent students or to the student's parents or employee.

Project Name:	Portfolio Website
Technology:	PHP, SQL, HTML, CSS, JavaScript, GitHub
Description:	I created my portfolio website which represents my information. I have created this website using HTML, CSS, JS and deployed on GitHub pages as it helps me to execute website on web easily. This is my website so you can learn a little more about me. URL: https://ajitsinhrajput.github.io/AjitSinhRajput/

Project Name:	Weather Forecast Web App
Technology:	HTML, CSS, JS
Description:	This website depicts information of weather in real-time. User can choose area or region for which weather forecast need to be shown.

Project Name:	Gym Website
Technology:	PHP, SQL, HTML, CSS, JavaScript, XAMPP-Server
Description:	This project is done for gym where user can get information about gym amenities and get register by form. Data will be stored to MYSQL table using PHP which is hosted on local network using XAMPP Server.

LANGUAGES

English	Full Professional Proficiency
Hindi	Native or Bilingual Proficiency
Gujarati	Native or Bilingual Proficiency

EXPERIENCE

Company Name:	TatvaSoft: Software Development Company
Designation:	Software Engineering Intern (Summer Internship Sem – 7)
Technology:	ReactJS, NodeJS with Web Development
Description:	Working on ReactJS and NodeJS technology for building good website with faster response and efficient work.

Company Name:	CreArt Solutions PVT LTD.
Designation:	Software Engineering Intern (Online Internship Sem 6)
Technology:	PHP, Laravel, Web Development
Description:	Working on PHP along with Laravel framework. During this internship I am learning about to create Online Video Calling webapp using PHP.

Company Name:	Eonian Software Solution
Designation:	Software Developer (January 2024 – Present)
Technology:	ReactJS with Typescript, NextJS and Vite (Framework), Python with FastAPI (Backend)
Description:	Managed the development of a CRM platform using ReactJS (TypeScript, NextJS, Vite) for frontend and Python (FastAPI) for backend. Introduced dynamic role-based access and conducted CRUD operations, integrating TypeScript (TSX) and Python. Designed "Campaign Management" module for importing data, configuring columns, and assigning campaigns to multiple agents, with editing functionality. Additionally, contributed to an AI image processing project with payment integration.

DECLARATION

I hereby declare that above furnished particulars are true to the best of my knowledge and belief.

Place: Gujarat, India.
